Dear Adam:

Better Business Bureau Accreditation status is something to be proud of. We have over 1000 companies in our service area that cannot be accredited for any price because of poor business performance based on our standards.

I want to congratulate TurnKey Internet, Inc. on receiving no complaints in the past three years. I hope you display the enclosed certificate at your place of business.

We are proud to associate your name with the most trusted name in business. The Better Business Bureau.

Sincerely,

David P. Polino  
President
